## **DSM-V e i film che raccontano la psiche (Italian Edition)** Massimo Lanzaro

Il mondo del cinema sembra essere affascinato dalla psichiatria così come molti psichiatri lo sono dai film. Le questioni psichiatriche sono stati temi ricorrenti nei film fin dal 1904 e molti autori hanno esplorato i misteri del cinema con metodologie di tipo psicoanalitico. Questa è tuttavia la prima raccolta di saggi che analizza i film partendo dalla concettualizzazione dei manuali professionali più accreditati (il recentissimo DSM-V) e, attraverso la narrazione cinematografica, propone un'esplorazione di fenomeni psichici e psicopatologici (l'ansia, la depressione, la psicosi, i disturbi di personalità) agevole e comprensibile anche per i non addetti ai lavori.
