AND NOW, THE FUN STUFF (SYNOPSIS):

2287 A.D. tells the story of Ashlyn Parker and Steven Sherrah, the man who is in command of Earth's last surviving starship. He has been struggling to keep the handful of Earth's survivors alive, hiding from the most vicious and powerful enemy humanity has ever known, an enemy that is relentless in his determination to see that every last human is killed.

-

His life is turned upside down as Ashlyn, a woman genetically engineered to be mentally and physically perfect - the next step in humanity's evolution, awakens from stasis. For her protection, she had been cryogenically frozen when Earth was attacked. Her return is brutal, for she awakens fifteen years later into a post-apocalyptic Earth to find that everyone she had known before is gone, the world destroyed.

-

From the first moment that her distress signal is received and Steven rescues Ashlyn, his heart is inexplicably drawn to her, as she is to him. Her presence challenges his loyalty to those whom he loves and all that he has ever known. For within Ashlyn, she holds secrets to a past he had never known existed. A past which goes back 6,000 years. As the series unfolds, she will lead Steven on a journey across the stars where they will discover how important humanity truly is.

*

2287 A.D. is packed full of action and adventure, containing little filler. Personally, we hate a 3 page description of how a star-drive engine operates, or even 3 paragraphs. We hope that you too will enjoy a story that moves quickly.

OUR THANKS TO: Zechariah Sitchin, the Ancient Aliens show on History Channel, Jason Martel, Erich von Daniken, Richard C. Hoagland, Coast to Coast with George Noory, Linda Moulton Howe, Georgio A. Tsoukalos and so many others for your dedication and research. **Thank you for brightening the darkness.**
