The Sharks of North American Waters Jose' I. Castro

For many years, brief encounters between sharks and humans could leave the latter with a vivid memory of the much-maligned fish but no convenient means of identifying it more specifically. With the publication of *The Sharks of North American Waters* in 1983, everyone from the experienced ichthyologist to the weekend angler had access to concise descriptions and accurate, detailed drawings in this handy field guide to more than one hundred species.

All species that have been reported within five hundred nautical miles of U.S. and Canadian shores (plus a few deep-water species from adjacent areas) are illustrated, with summaries of diagnostic characteristics, similar species, geographic range, biology, reproduction, utility, and fishing methods. An illustrated key to the families of sharks, family descriptions, and species characteristics makes field identification simple. Also included is a general account of the evolution of sharks, their anatomy, reproduction, and distribution.

From reader reviews:

Claude Gonzalez:

Playing with family in a park, coming to see the coastal world or hanging out with close friends is thing that usually you will have done when you have spare time, in that case why you don't try factor that really opposite from that. One particular activity that make you not experience tired but still relaxing, trilling like on roller coaster you have been ride on and with addition of knowledge. Even you love The Sharks of North American Waters, it is possible to enjoy both. It is good combination right, you still would like to miss it? What kind of hang-out type is it? Oh occur its mind hangout guys. What? Still don't buy it, oh come on its called reading friends.

Gordon Woods:

Your reading sixth sense will not betray you actually, why because this The Sharks of North American Waters book written by well-known writer we are excited for well how to make book which might be understand by anyone who also read the book. Written within good manner for you, dripping every ideas and writing skill only for eliminate your hunger then you still doubt The Sharks of North American Waters as good book but not only by the cover but also by content. This is one publication that can break don't ascertain book by its protect, so do you still needing a different sixth sense to pick that!? Oh come on your reading sixth sense already told you so why you have to listening to yet another sixth sense.

Sean Mills:

Reading a book to get new life style in this 12 months; every people loves to study a book. When you go through a book you can get a lots of benefit. When you read guides, you can improve your knowledge, mainly because book has a lot of information in it. The information that you will get depend on what forms of book that you have read. If you need to get information about your study, you can read education books, but if you want to entertain yourself read a fiction books, these kinds of us novel, comics, along with soon. The The Sharks of North American Waters offer you a new experience in reading through a book.

Scott Settle:

That reserve can make you to feel relax. This specific book The Sharks of North American Waters was colorful and of course has pictures around. As we know that book The Sharks of North American Waters has many kinds or style. Start from kids until adolescents. For example Naruto or Investigator Conan you can read and think that you are the character on there. So , not at all of book usually are make you bored, any it can make you feel happy, fun and rest. Try to choose the best book to suit your needs and try to like reading that will.
