Energy, Utility, Transportation and Environmental Law for the 21st Century: A Collection

Providing insight into current issues and concerns of interest to practitioners, this anthology includes selected articles from the Section of Public Utility, Communications, and Transportation Law's quarterly publication, *Infrastructure*. For this compendium the editors have selected articles from mid-2008 to early 2012 that highlight issues of continuing importance to those working in the areas of energy, public utilities, transportation, and communications law. Authors have reviewed their original articles and provided additional material in the form of an update, addendum, or postscript to each article. These articles are organized by topic areas:

- Renewable energy
- Nuclear power
- Telecommunications
- Transportation
- Energy and the environment
