Student praise for the previous edition:

"This book contains great illustrations and relevant, succinct information concerning the anatomy of the neck, thorax, and abdomen. I highly recommend this product to all students of any undergraduate or graduate level anatomy course."

Features of the Second Edition:

- A new introductory section with an overview of the organs and discussion of embryologic development
- Coverage of the organs, by body region, reorganized and expanded by over 50%, includes more clinical applications and radiologic procedures than the previous edition
- Each of the two regional units now begins with a short overview chapter on the region and its contents, followed by a longer overview chapter on the structure and neurovasculature of the region and its organs, and then by chapters on topographic anatomy of the region to support dissection
- An innovative, user-friendly format in which each two-page spread presents a self-contained guide to a specific topic
- Summary tables, ideal for rapid review, appear throughout
- A scratch-off code provides access to **WinkingSkull.com PLUS**, featuring full-color anatomy illustrations and radiographs, labels-on, labels-off functionality, and timed self-tests

The **THIEME Atlas of Anatomy** series also features *General Anatomy and Musculoskeletal System* and *Head, Neck, and Neuroanatomy*. Each atlas includes access to **WinkingSkull.com PLUS**.

Teaching anatomy? We have the educational e-product you need.

Instructors can use the **Thieme Teaching Assistant: Anatomy** to download and easily import 2,000+ full-color illustrations to enhance presentations, course materials, and handouts.

From reader reviews:

Louise Graham:

Do you have favorite book? In case you have, what is your favorite's book? E-book is very important thing for us to learn everything in the world. Each guide has different aim or goal; it means that book has different type. Some people experience enjoy to spend their time and energy to read a book. They are really reading whatever they have because their hobby is usually reading a book. Think about the person who don't like reading a book? Sometime, man feel need book once they found difficult problem or even exercise. Well, probably you should have this Internal Organs (THIEME Atlas of Anatomy).

Edmond Pounds:

Nowadays reading books become more than want or need but also get a life style. This reading habit give you lot of advantages. Associate programs you got of course the knowledge the actual information inside the book which improve your knowledge and information. The information you get based on what kind of guide you read, if you want send more knowledge just go with knowledge books but if you want experience happy read one together with theme for entertaining like comic or novel. The actual Internal Organs (THIEME Atlas of Anatomy) is kind of publication which is giving the reader unforeseen experience.

Iris Wright:

Why? Because this Internal Organs (THIEME Atlas of Anatomy) is an unordinary book that the inside of the book waiting for you to snap the idea but latter it will jolt you with the secret it inside. Reading this book alongside it was fantastic author who all write the book in such remarkable way makes the content inside easier to understand, entertaining method but still convey the meaning thoroughly. So , it is good for you because of not hesitating having this anymore or you going to regret it. This phenomenal book will give you a lot of gains than the other book have such as help improving your ability and your critical thinking means. So , still want to hesitate having that book? If I were you I will go to the guide store hurriedly.

Arthur Haynes:

This Internal Organs (THIEME Atlas of Anatomy) is great book for you because the content which can be full of information for you who else always deal with world and also have to make decision every minute. This kind of book reveal it facts accurately using great plan word or we can say no rambling sentences inside. So if you are read the idea hurriedly you can have whole details in it. Doesn't mean it only offers you straight forward sentences but difficult core information with splendid delivering sentences. Having Internal Organs (THIEME Atlas of Anatomy) in your hand like finding the world in your arm, details in it is not ridiculous one particular. We can say that no book that offer you world in ten or fifteen second right but this guide already do that. So , this really is good reading book. Hey there Mr. and Mrs. hectic do you still doubt that?
