Oxidative Stress in Aging: From Model Systems to Human Diseases (Aging Medicine)

Oxidative Stress in Aging: From Model Systems to Human Diseases (Aging Medicine)

Human aging is a complex phenomenon. This state-of-the-art book discusses the role of free radicals in aging in different animal models, as well as the relevance of free radicals on age-related diseases and pathological conditions in humans (following an introduction section of the basics and theory of free radicals). In addition, the major interventions trials of antioxidant supplements in age-related disease, cancer and so forth are reviewed and discussed.
