Enemies of the Enlightenment: The French Counter-Enlightenment and the Making of Modernity

Darrin M. McMahon

Critics have long treated the most important intellectual movement of modern history--the Enlightenment--as if it took shape in the absence of opposition. In this groundbreaking new study, Darrin McMahon demonstrates that, on the contrary, contemporary resistance to the Enlightenment was a major cultural force, shaping and defining the Enlightenment itself from the moment of inception, while giving rise to an entirely new ideological phenomenon--what we have come to think of as the "Right." McMahon skillfully examines the Counter-Enlightenment, showing that it was an extensive, international, and thoroughly modern affair.
