My Visit to Venus T. Lobsang Rampa

New Saucerian proudly presents *My Visit to Venus*, the rarest of T. Lobsang Rampa's books. It was rescued from the dustbin by Gray Barker, who provides an excellent introduction in this audiobook. Until now, *My Visit to Venus* was very difficult to find and very expensive. Finally, this wonderful period piece of ufology has been available to the general public.

According to Barker, who first published the book in the 1960s, Rampa's claim that his body had been taken over by a Tibetan Buddhist monk was in no way disproved. In fact, Barker provides a letter from a Tibetan Buddhist scholar stating that Rampa's writings about the inner workings of Tibetan Buddhism were quite accurate and actually revealed closely guarded secrets of the Himalayan monasteries.

Knowing this, how does one interpret Rampa's claim to have seen a time travel machine buried deep in a mountain cavern or his claim to have interacted with UFOs and their occupants? If the material in this book is in any way accurate, it sheds a shocking and revealing light on our ancient past, as well as our genetic history.
