Airborne Electronic Hardware Design Assurance: A Practitioner's Guide to RTCA/DO-254 Randall Fulton, Roy Vandermolen

Written by a Federal Aviation Administration (FAA) consultant designated engineering representative (DER) and an electronics hardware design engineer who together taught the DO-254 class at the Radio Technical Commission for Aeronautics, Inc. (RTCA) in Washington, District of Columbia, USA, **Airborne Electronic Hardware Design Assurance: A Practitioner's Guide to RTCA/DO-254** is a testimony to the lessons learned and wisdom gained from many years of first-hand experience in the design, verification, and approval of airborne electronic hardware.

This practical guide to the use of RTCA/DO-254 in the development of airborne electronic hardware for safety critical airborne applications:

- Describes how to optimize engineering processes and practices to harmonize with DO-254
- Addresses the single most problematic aspect of engineering and compliance to DO-254?poorly written requirements
- Includes a tutorial on how to write requirements that will minimize the cost and effort of electronic design and verification
- Discusses the common pitfalls encountered by practitioners of DO-254, along with how those pitfalls occur and what can be done about them
- Settles the ongoing debate and misconceptions about the true definition of a derived requirement
- Promotes embracing DO-254 as the best means to achieve compliance to it, as well as the best path to high-quality electronic hardware

Airborne Electronic Hardware Design Assurance: A Practitioner's Guide to RTCA/DO-254 offers real-world insight into RTCA/DO-254 and how its objectives can be satisfied. It provides engineers with valuable information that can be applied to any project to make compliance to DO-254 as easy and problem-free as possible.

From reader reviews:

Scott Ridgway:

Do you have favorite book? When you have, what is your favorite's book? Publication is very important thing for us to know everything in the world. Each guide has different aim or even goal; it means that reserve has different type. Some people sense enjoy to spend their the perfect time to read a book. They may be reading whatever they acquire because their hobby is definitely reading a book. Consider the person who don't like studying a book? Sometime, person feel need book if they found difficult problem as well as exercise. Well, probably you'll have this Airborne Electronic Hardware Design Assurance: A Practitioner's Guide to RTCA/DO-254.

Sharyl Nettles:

Throughout other case, little individuals like to read book Airborne Electronic Hardware Design Assurance: A Practitioner's Guide to RTCA/DO-254. You can choose the best book if you appreciate reading a book. Provided that we know about how is important some sort of book Airborne Electronic Hardware Design Assurance: A Practitioner's Guide to RTCA/DO-254. You can add knowledge and of course you can around the world with a book. Absolutely right, mainly because from book you can realize everything! From your country till foreign or abroad you will find yourself known. About simple issue until wonderful thing you could know that. In this era, we can easily open a book or searching by internet gadget. It is called e-book. You may use it when you feel fed up to go to the library. Let's read.

Susan Demar:

Reading a publication tends to be new life style in this era globalization. With reading you can get a lot of information that could give you benefit in your life. Using book everyone in this world can certainly share their idea. Textbooks can also inspire a lot of people. Lots of author can inspire all their reader with their story or maybe their experience. Not only the storyline that share in the ebooks. But also they write about the data about something that you need instance. How to get the good score toefl, or how to teach children, there are many kinds of book that you can get now. The authors these days always try to improve their expertise in writing, they also doing some analysis before they write with their book. One of them is this Airborne Electronic Hardware Design Assurance: A Practitioner's Guide to RTCA/DO-254.

David Gonzales:

Spent a free a chance to be fun activity to try and do! A lot of people spent their sparetime with their family, or all their friends. Usually they carrying out activity like watching television, about to beach, or picnic from the park. They actually doing same task every week. Do you feel it? Do you need to something different to fill your personal free time/ holiday? Might be reading a book may be option to fill your totally free time/ holiday. The first thing you ask may be what kinds of guide that you should read. If you want to try look for book, may be the guide untitled Airborne Electronic Hardware Design Assurance: A Practitioner's Guide to

RTCA/DO-254 can be great book to read. May be it can be best activity to you.
