Handbook of the Economics of International Migration: The Immigrants: 1A (Handbooks in Economics)

Handbook of the Economics of International Migration: The Immigrants: 1A (Handbooks in Economics)

The economic literature on international migration interests policymakers as well as academics throughout the social sciences. These volumes, the first of a new subseries in the Handbooks in Economics, describe and analyze scholarship created since the inception of serious attention began in the late 1970s. This literature appears in the general economics journals, in various field journals in economics (especially, but not exclusively, those covering labor market and human resource issues), in interdisciplinary immigration journals, and in papers by economists published in journals associated with history, sociology, political science, demography, and linguistics, among others.

- Covers a range of topics from labor market outcomes and fiscal consequences to the effects of international migration on the level and distribution of income – and everything in between.
- Encompasses a wide range of topics related to migration and is multidisciplinary in some aspects, which is crucial on the topic of migration
- Appeals to a large community of scholars interested in this topic and for whom no overviews or summaries exist
